Letter of reference and our previous collaboration

Dear Sir or Madam,
Dear Mrs Düffort,

We hereby confirm the constructive and very satisfying co-operation we have had with the

Vitrinen- und Glasbau REIER GmbH, in Lauta/Saxony, Germany

and the **State Natural History Museum Braunschweig/Brunswick** since 2022.

With the consultations and planning in advance, as well as delivery, type and quality, we were more than satisfied. This also applies in particular to the flexibility of delivery times, the lighting and colouring. In terms of quality and longevity, there is, to our knowledge, little comparable on the European market. Which is why we can recommend your company's display cases unreservedly and without reservation. Also, as we have already worked together more than 10 years ago (Geoscience Museum, University of Göttingen) and here too, we were more than impressed by the quality and the design of your climatized display cases (for the „Königsberg Amber Collection“).

With kind regards

(PD Dr. Mike Reich)
Executive Director

(Dipl.-Geoln. Tanja R. Stegemann)
Deputy Director
